

Organization Structure

Departments, Leadership & Reporting Hierarchy

Document Number	NTS-ORG-002
Version	4.1
Effective Date	February 3, 2026
Document Owner	Marcus Johnson, VP Cloud & Platform Engineering (on behalf of the Executive Leadership Team)
Classification	Internal Use Only

Table of Contents

1. Overview

NexaTech Solutions is organized into 11 departments spanning delivery, go-to-market, and corporate functions, supporting roughly 550 employees across eight offices. This document describes the current reporting structure as of the effective date above. Org changes are recorded first in Workday and reflected here on a quarterly cadence; for the most current reporting line for a specific individual, HR Business Partners should be consulted, as changes announced in HR Announcements may lag this document by several weeks.

2. Executive Leadership Team

The Executive Leadership Team consists of the Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, and three Vice Presidents who each own a portfolio of departments spanning delivery and technical direction.

Vice President	Portfolio	Office	Directors Reporting In
Marcus Johnson	Cloud & Platform Engineering	Seattle	Sofia Rossi, Lucas Moreau, Nadia Haddad
Fatima Al-Farsi	Data & AI Solutions	London	Ravi Iyer, Kenji Tanaka
Daniel O'Brien	Client Delivery & Cyber Security	New York	Emma Watson, Oliver Bennett, Grace Okafor

3. Department Directory

Each department below is led by a Director who reports to one of the three VPs. Departments with delivery responsibility (Cloud Engineering, AI Solutions, Cyber Security, Data Engineering, Platform Engineering, DevOps, Enterprise Applications) staff project teams described in the Project Portfolio document. Sales, Finance, Human Resources, and Customer Success provide supporting functions; Customer Success also holds delivery-adjacent responsibility for renewal and expansion on active accounts.

Cloud Engineering

Designs and implements cloud infrastructure, landing zones, and migration programs across AWS, Azure, and GCP. Largest engineering department by headcount.

Headcount snapshot: 1 Director(s), 2 Manager(s), 4 additional staff on record in this document's scope.

Leadership

- Sofia Rossi — Director, Cloud Engineering (Berlin)
- Priya Menon — Engineering Manager, Cloud Engineering (Bangalore)
- Tariq Khan — Engineering Manager, Cloud Engineering (London)

AI Solutions

Builds machine learning, generative AI, and knowledge-graph solutions, including the NexaGraph platform used across several retail and financial-services engagements.

Headcount snapshot: 1 Director(s), 2 Manager(s), 0 additional staff on record in this document's scope.

Leadership

- Ravi Iyer — Director, AI Solutions (Bangalore)
- Priyanka Menon — Engineering Manager, AI Solutions (Bangalore)
- Maya Patel — Delivery Manager, AI Solutions (Austin)

Cyber Security

Delivers managed security operations, penetration testing, and compliance advisory (GRC) work; operates the 24x7 Security Operations Center jointly out of London and Bangalore.

Headcount snapshot: 1 Director(s), 1 Manager(s), 8 additional staff on record in this document's scope.

Leadership

- Emma Watson — Director, Cyber Security (London)
- Anders Larsen — Delivery Manager, Cyber Security (Berlin)

Data Engineering

Designs data pipelines, warehousing, and analytics platforms; frequently partners with AI Solutions on model-ready data infrastructure.

Headcount snapshot: 1 Director(s), 2 Manager(s), 6 additional staff on record in this document's scope.

Leadership

- Kenji Tanaka — Director, Data Engineering (Singapore)
- Priya Sharma — Engineering Manager, Data Engineering (Bangalore)
- Ethan Foster — Engineering Manager, Data Engineering (New York)

Platform Engineering

Owns internal developer platforms, Kubernetes tooling, and reusable infrastructure-as-code modules consumed by delivery teams.

Headcount snapshot: 1 Director(s), 1 Manager(s), 7 additional staff on record in this document's scope.

Leadership

- Lucas Moreau — Director, Platform Engineering (Toronto)
- Yuki Sato — Engineering Manager, Platform Engineering (Singapore)

DevOps

Provides CI/CD pipeline design, release engineering, and observability tooling in support of client engagements and NexaTech's own internal tools.

Headcount snapshot: 1 Director(s), 1 Manager(s), 7 additional staff on record in this document's scope.

Leadership

- Nadia Haddad — Director, DevOps (Austin)
- Carlos Reyes — Engineering Manager, DevOps (Austin)

Enterprise Applications

Delivers Salesforce, SAP, and custom integration work for enterprise clients modernizing line-of-business applications.

Headcount snapshot: 1 Director(s), 1 Manager(s), 5 additional staff on record in this document's scope.

Leadership

- Oliver Bennett — Director, Enterprise Applications (New York)
- Ingrid Novak — Delivery Manager, Enterprise Applications (Berlin)

Human Resources

People Operations, Talent Acquisition, Learning & Development, and HR Business Partner functions.

Headcount snapshot: 0 Director(s), 0 Manager(s), 4 additional staff on record in this document's scope.

Finance

Corporate finance, project accounting, and billing operations across all delivery engagements.

Headcount snapshot: 0 Director(s), 0 Manager(s), 3 additional staff on record in this document's scope.

Sales

New-logo and account-expansion sales, supported by Solutions Consultants embedded from technical departments during the proposal process.

Headcount snapshot: 0 Director(s), 0 Manager(s), 4 additional staff on record in this document's scope.

Customer Success

Account management and renewal function for existing clients, working closely with assigned Project Managers.

Headcount snapshot: 1 Director(s), 0 Manager(s), 2 additional staff on record in this document's scope.

Leadership

- Grace Okafor — Director, Customer Success (Toronto)

4. Reporting Hierarchy Notes

Because NexaTech has grown through both organic hiring and two small tuck-in acquisitions (a Kubernetes consultancy absorbed into Platform Engineering in 2023, and a boutique fraud-analytics team absorbed into AI Solutions in 2024), reporting lines occasionally cross department boundaries during transition periods. Employees should treat SkillMatrix and Workday, not this document, as the system of record for their current manager if a discrepancy is noticed.

Note on name collisions: NexaTech currently has three managers with very similar names in overlapping departments — Priya Menon (Cloud Engineering, Bangalore), Priya Sharma (Data Engineering, Bangalore), and Priyanka Menon (AI Solutions, Bangalore). Distribution lists and meeting invites should always be double-checked against employee ID, not name alone, particularly for cross-department steering committees.

Similarly, two individual contributors share the name John — John Smith (Cloud Solutions Architect, Seattle office) and John Smyth (Cloud Engineer, Austin office) — both within Cloud Engineering. Project staffing records in ResourceHub distinguish them by employee ID.

5. Office Locations

Office	Region	Primary Departments Represented
Seattle	United States (HQ)	Cloud Engineering, Sales, Finance, Executive Leadership
Austin	United States	DevOps, AI Solutions, Data Engineering
New York	United States	Enterprise Applications, Cyber Security, Data Engineering
Toronto	Canada	Platform Engineering, Customer Success
London	United Kingdom	Cyber Security, AI Solutions, Sales
Berlin	Germany	Cloud Engineering, Enterprise Applications, Cyber Security
Bangalore	India	AI Solutions, Data Engineering, Cloud Engineering
Singapore	Singapore	Platform Engineering, Data Engineering, Customer Success
