

Client Profiles

Account Overviews & Strategic Context

Document Number	NTS-SLS-005
Version	5.3
Effective Date	February 18, 2026
Document Owner	Sales & Customer Success Leadership
Classification	Internal Use Only

Table of Contents

1. Portfolio Overview

NexaTech serves 20 active and former clients across 12 industries and 9 countries. Client profiles below summarize the account context; for engagement-level scope, staffing, and technology detail, refer to the Project Portfolio document, which is organized by project rather than by client.

2. Retail

GlobalRetail

Industry	Retail
Country	Germany
Regional Office Coverage	Berlin
Account Manager	Liam Owusu (NX1059)
Preferred Cloud Platform	Mixed (AWS-led)
Security / Compliance Requirements	PCI-DSS Level 1 (card data), GDPR where operating in the EU.
Active/Historical Project Count	3

Business Overview

A pan-European grocery and general-merchandise retailer headquartered in Frankfurt, operating over 1,400 stores. NexaTech's relationship began with a store-operations dashboard delivery and has since expanded into graph-based recommendation and fraud-detection work.

Current & Historical Engagements

- Project Titan — Status: Active (see Project Portfolio, PRJ100, for full detail)
- Project Atlas — Status: Active (see Project Portfolio, PRJ102, for full detail)
- Project GlobalRetail Store Ops — Status: Completed (see Project Portfolio, PRJ123, for full detail)

Strategic Initiatives

GlobalRetail's primary strategic initiative with NexaTech centers on build a real-time product recommendation and fraud-detection graph platform for GlobalRetail's German e-commerce operations.

RetailOne

Industry	Retail
Country	United States
Regional Office Coverage	Seattle / Austin / New York
Account Manager	Alice Watson (NX1037)

Preferred Cloud Platform	Mixed (AWS-led)
Security / Compliance Requirements	PCI-DSS Level 1 (card data), GDPR where operating in the EU.
Active/Historical Project Count	1

Business Overview

A US-based big-box home-goods retailer with an aggressive e-commerce growth mandate. Engaged NexaTech to modernize a decade-old recommendation engine ahead of the 2026 holiday season.

Current & Historical Engagements

- Project TitanX — Status: Active (see Project Portfolio, PRJ101, for full detail)

Strategic Initiatives

RetailOne's primary strategic initiative with NexaTech centers on modernize RetailOne's legacy recommendation engine into a cloud-native microservices architecture on Amazon EKS.

Retail Dynamics

Industry	Retail
Country	United Kingdom
Regional Office Coverage	London
Account Manager	Liam Owusu (NX1059)
Preferred Cloud Platform	Mixed (AWS-led)
Security / Compliance Requirements	PCI-DSS Level 1 (card data), GDPR where operating in the EU.
Active/Historical Project Count	1

Business Overview

A UK loyalty-program-driven fashion retailer. Early-stage personalization engagement following a competitive RFP process in late 2025.

Current & Historical Engagements

- Project Retail Dynamics Personalization — Status: Active (see Project Portfolio, PRJ120, for full detail)

Strategic Initiatives

Retail Dynamics's primary strategic initiative with NexaTech centers on deploy a personalization engine for Retail Dynamics' UK loyalty program.

3. Healthcare

Meridian Health Systems

Industry	Healthcare
Country	United States
Regional Office Coverage	Seattle / Austin / New York
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	Azure
Security / Compliance Requirements	HIPAA (US) / PHIPA (Ontario) as applicable; encryption at rest and in transit for all patient data.
Active/Historical Project Count	1

Business Overview

A multi-state US hospital network seeking to unify EHR data across four regional health systems acquired over the past decade.

Current & Historical Engagements

- Project Meridian Care Connect — Status: Active (see Project Portfolio, PRJ103, for full detail)

Strategic Initiatives

Meridian Health Systems's primary strategic initiative with NexaTech centers on integrate Meridian Health Systems' regional hospital EHR platforms behind a unified interoperability layer.

Fairview Regional Hospitals

Industry	Healthcare
Country	Canada
Regional Office Coverage	Toronto
Account Manager	Liam Owusu (NX1059)
Preferred Cloud Platform	Azure
Security / Compliance Requirements	HIPAA (US) / PHIPA (Ontario) as applicable; encryption at rest and in transit for all patient data.
Active/Historical Project Count	1

Business Overview

A Canadian regional hospital group modernizing decision-support reporting off an aging on-premises data warehouse.

Current & Historical Engagements

- Project Fairview Data Modernization — Status: On Hold (see Project Portfolio, PRJ104, for full detail)

Strategic Initiatives

Fairview Regional Hospitals's primary strategic initiative with NexaTech centers on migrate Fairview's decision-support reporting off an on-premises Oracle 11g warehouse.

4. Banking & Financial Services

Sterling Capital Bank

Industry	Banking & Financial Services
Country	United States
Regional Office Coverage	Seattle / Austin / New York
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	Mixed
Security / Compliance Requirements	SOC 2 Type II, PCI-DSS, and regional banking-regulator data-residency requirements.
Active/Historical Project Count	2

Business Overview

A mid-size US regional bank with a card-issuing and settlement business; engaged NexaTech for both ledger modernization and fraud-graph analytics.

Current & Historical Engagements

- Project Sterling Ledger — Status: Active (see Project Portfolio, PRJ105, for full detail)
- Project Sterling Fraud Graph — Status: Active (see Project Portfolio, PRJ121, for full detail)

Strategic Initiatives

Sterling Capital Bank's primary strategic initiative with NexaTech centers on replace Sterling Capital Bank's batch settlement process with an event-driven ledger on Kafka.

Nordwest Bank AG

Industry	Banking & Financial Services
Country	Germany
Regional Office Coverage	Berlin
Account Manager	Liam Owusu (NX1059)

Preferred Cloud Platform	Mixed
Security / Compliance Requirements	SOC 2 Type II, PCI-DSS, and regional banking-regulator data-residency requirements.
Active/Historical Project Count	1

Business Overview

A German retail bank undertaking a multi-year core-banking replacement program.

Current & Historical Engagements

- Project Northwest Core Banking — Status: Active (see Project Portfolio, PRJ106, for full detail)

Strategic Initiatives

Nordwest Bank AG's primary strategic initiative with NexaTech centers on deliver a phased core-banking replacement program for Nordwest Bank AG's retail division in Frankfurt.

5. Insurance

Harborview Insurance Group

Industry	Insurance
Country	United Kingdom
Regional Office Coverage	London
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	AWS
Security / Compliance Requirements	GDPR, UK FCA data-handling guidance, SOC 2 Type II.
Active/Historical Project Count	2

Business Overview

A UK-headquartered specialty insurer piloting generative-AI claims triage; also previously scoped (and later cancelled) a mainframe migration.

Current & Historical Engagements

- Project Harborview Claims AI — Status: Active (see Project Portfolio, PRJ107, for full detail)
- Project Harborview Legacy Migration — Status: Cancelled (see Project Portfolio, PRJ122, for full detail)

Strategic Initiatives

Harborview Insurance Group's primary strategic initiative with NexaTech centers on automate first-notice-of-loss triage for Harborview using a generative-AI claims assistant.

6. Manufacturing

Continental Manufacturing Co.

Industry	Manufacturing
Country	Germany
Regional Office Coverage	Berlin
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	Azure
Security / Compliance Requirements	ISO 27001 alignment; OT/IT network segmentation for shop-floor systems.
Active/Historical Project Count	2

Business Overview

A German industrial manufacturer with plants across three countries, focused on shop-floor equipment monitoring and supplier collaboration tooling.

Current & Historical Engagements

- Project Continental OEE — Status: Active (see Project Portfolio, PRJ108, for full detail)
- Project Continental Vendor Portal — Status: Completed (see Project Portfolio, PRJ124, for full detail)

Strategic Initiatives

Continental Manufacturing Co.'s primary strategic initiative with NexaTech centers on deploy real-time Overall Equipment Effectiveness monitoring across three Continental plants.

Pinnacle Industrial Systems

Industry	Manufacturing
Country	United States
Regional Office Coverage	Seattle / Austin / New York
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	Azure
Security / Compliance Requirements	ISO 27001 alignment; OT/IT network segmentation for shop-floor systems.

Active/Historical Project Count	1
---------------------------------	---

Business Overview

A US industrial equipment manufacturer investing in predictive maintenance to reduce unplanned downtime on stamping lines.

Current & Historical Engagements

- Project Pinnacle Predictive Maintenance — Status: Active (see Project Portfolio, PRJ109, for full detail)

Strategic Initiatives

Pinnacle Industrial Systems's primary strategic initiative with NexaTech centers on build failure-prediction models for Pinnacle's stamping-line equipment fleet.

7. Telecommunications

Orbit Telecom

Industry	Telecommunications
Country	Singapore
Regional Office Coverage	Singapore
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	GCP
Security / Compliance Requirements	Local telecom-regulator data-residency rules; SOC 2 Type II.
Active/Historical Project Count	1

Business Overview

A Singapore-based mobile network operator building network-quality analytics for its 5G core rollout.

Current & Historical Engagements

- Project Orbit 5G Analytics — Status: Active (see Project Portfolio, PRJ110, for full detail)

Strategic Initiatives

Orbit Telecom's primary strategic initiative with NexaTech centers on stand up a network-quality analytics platform for Orbit Telecom's 5G core rollout in Singapore.

Vantage Mobile Networks

Industry	Telecommunications
Country	Australia
Regional Office Coverage	Singapore (APAC coverage)
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	GCP
Security / Compliance Requirements	Local telecom-regulator data-residency rules; SOC 2 Type II.
Active/Historical Project Count	1

Business Overview

An Australian mobile carrier that completed a churn-prediction engagement with NexaTech in 2025.

Current & Historical Engagements

- Project Vantage Churn Insight — Status: Completed (see Project Portfolio, PRJ111, for full detail)

Strategic Initiatives

Vantage Mobile Networks's primary strategic initiative with NexaTech centers on deliver a churn-prediction model for Vantage Mobile Networks' postpaid subscriber base.

8. Energy & Utilities

Helios Energy Partners

Industry	Energy & Utilities
Country	Netherlands
Regional Office Coverage	Berlin (EU coverage)
Account Manager	Liam Owusu (NX1059)
Preferred Cloud Platform	Azure
Security / Compliance Requirements	NERC CIP-aligned controls for grid-adjacent systems; GDPR (EU clients).
Active/Historical Project Count	1

Business Overview

A Dutch renewable-energy grid operator forecasting regional load balancing.

Current & Historical Engagements

- Project Helios Grid Forecast — Status: Active (see Project Portfolio, PRJ112, for full detail)

Strategic Initiatives

Helios Energy Partners's primary strategic initiative with NexaTech centers on forecast regional renewable load balancing for Helios Energy Partners' Dutch grid operator.

Meridian Power & Gas

Industry	Energy & Utilities
Country	United States
Regional Office Coverage	Seattle / Austin / New York
Account Manager	Liam Owusu (NX1059)
Preferred Cloud Platform	Azure
Security / Compliance Requirements	NERC CIP-aligned controls for grid-adjacent systems; GDPR (EU clients).
Active/Historical Project Count	1

Business Overview

A US utility correlating outage tickets with grid telemetry to prioritize infrastructure investment.

Current & Historical Engagements

- Project Meridian Power Outage Analytics — Status: Active (see Project Portfolio, PRJ113, for full detail)

Strategic Initiatives

Meridian Power & Gas's primary strategic initiative with NexaTech centers on correlate outage-ticket data with grid telemetry to prioritize infrastructure repair for Meridian Power & Gas.

9. Logistics & Supply Chain

SwiftPath Logistics

Industry	Logistics & Supply Chain
Country	Singapore
Regional Office Coverage	Singapore
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	AWS
Security / Compliance	SOC 2 Type II; regional data-residency per country of operation.

Requirements	
Active/Historical Project Count	1

Business Overview

A Singapore-headquartered logistics provider optimizing last-mile delivery across Southeast Asia.

Current & Historical Engagements

- Project SwiftPath Route Optimizer — Status: Active (see Project Portfolio, PRJ114, for full detail)

Strategic Initiatives

SwiftPath Logistics's primary strategic initiative with NexaTech centers on optimize last-mile delivery routing for SwiftPath Logistics' Southeast Asia fleet.

10. Public Sector

Ontario Provincial Transit Authority

Industry	Public Sector
Country	Canada
Regional Office Coverage	Toronto
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	Azure
Security / Compliance Requirements	Government-specific security assessment and data-residency mandates (varies by jurisdiction).
Active/Historical Project Count	1

Business Overview

A Canadian public-sector transit agency modernizing fare collection and scheduling systems.

Current & Historical Engagements

- Project Ontario Transit Modernization — Status: Active (see Project Portfolio, PRJ115, for full detail)

Strategic Initiatives

Ontario Provincial Transit Authority's primary strategic initiative with NexaTech centers on modernize fare-collection and scheduling systems for the Ontario Provincial Transit Authority.

11. Media & Entertainment

BrightWave Media Group

Industry	Media & Entertainment
Country	United States
Regional Office Coverage	Seattle / Austin / New York
Account Manager	Liam Owusu (NX1059)
Preferred Cloud Platform	AWS
Security / Compliance Requirements	SOC 2 Type II; content-rights and DRM handling requirements.
Active/Historical Project Count	1

Business Overview

A US streaming media company building real-time viewership analytics.

Current & Historical Engagements

- Project BrightWave Streaming Insights — Status: Active (see Project Portfolio, PRJ116, for full detail)

Strategic Initiatives

BrightWave Media Group's primary strategic initiative with NexaTech centers on deliver real-time viewership analytics for BrightWave Media Group's streaming platform.

12. Pharmaceuticals

Aventis BioPharma

Industry	Pharmaceuticals
Country	France
Regional Office Coverage	London (EU coverage)
Account Manager	Liam Owusu (NX1059)
Preferred Cloud Platform	AWS
Security / Compliance Requirements	GxP validation, 21 CFR Part 11 (US), EU Annex 11 for computerized systems.
Active/Historical Project Count	1

Business Overview

A French pharmaceutical company centralizing clinical trial data ingestion under GxP controls.

Current & Historical Engagements

- Project Aventis Trial Data Hub — Status: Active (see Project Portfolio, PRJ117, for full detail)

Strategic Initiatives

Aventis BioPharma's primary strategic initiative with NexaTech centers on centralize multi-site clinical trial data ingestion for Aventis BioPharma under GxP controls.

Rhineland Pharma AG

Industry	Pharmaceuticals
Country	Germany
Regional Office Coverage	Berlin
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	AWS
Security / Compliance Requirements	GxP validation, 21 CFR Part 11 (US), EU Annex 11 for computerized systems.
Active/Historical Project Count	1

Business Overview

A German pharmaceutical manufacturer automating adverse-event signal detection; engagement currently on hold pending budget review.

Current & Historical Engagements

- Project Rhineland Pharmacovigilance — Status: On Hold (see Project Portfolio, PRJ118, for full detail)

Strategic Initiatives

Rhineland Pharma AG's primary strategic initiative with NexaTech centers on automate adverse-event signal detection for Rhineland Pharma AG's European product lines.

13. Automotive

Falcon Motor Works

Industry	Automotive
Country	United Arab Emirates

Regional Office Coverage	London (EMEA coverage)
Account Manager	Alice Watson (NX1037)
Preferred Cloud Platform	AWS
Security / Compliance Requirements	ISO/SAE 21434 (automotive cybersecurity) alignment for connected-vehicle telematics.
Active/Historical Project Count	1

Business Overview

A UAE-based automotive manufacturer building telematics ingestion for a new connected-vehicle fleet.

Current & Historical Engagements

- Project Falcon Connected Vehicle — Status: Active (see Project Portfolio, PRJ119, for full detail)

Strategic Initiatives

Falcon Motor Works's primary strategic initiative with NexaTech centers on ingest and analyze telematics streams for Falcon Motor Works' new connected-vehicle fleet in the UAE.
